DIVE SUPPLY HISTORY

Diving & Snorkeling Equipment Wholesale Specialist

Dive Supply is one of the leading distributors and wholesalers of major brand names in South East Asia and is the exclusive distributor for Scubapro, Suunto, Seac Sub, Pelican, Saekodive, Bauer, Luxfer, OMS, Snap Sights and Deep Blue Products.

We operate from our 1,500 sqm custom built warehouse in Chalong, Phuket, where we have a fully equipped service center.

If you are looking for the leading brands in Diving and Snorkeling Equipment along with value for money and excellent customer service then Dive Supply is the place to come.

We have a product portfolio which is second to none and we are the main distributor for PADI materials throughout Thailand.

REGULATOR TECHNICAL FEATURES

Conventional downstream piston first stage technology

The first stage of Scubapro regulators is the benchmark of simplicity and reliability. The piston is the only moving part in this low maintenance first stage. MK2PLUS is a conventional piston first stage.

Over-balanced flow-through piston first stage technology

The proprietary design allows air to flow directly through the hollow interior of the piston shaft, rather than diverting incoming high pressure around the piston and the seating mechanism like conventional piston designs. This technology delivers two significant performance advantages. First, the piston is unaffected by changes in pressure. Second the regulator is able to deliver significantly higher quantities of air on demand. MK25T & MK25 are Balanced first stages.

Over-balanced diaphragm first stage technology

Scubapros balanced-diaphragm technology incorporates a pneumatically-balanced, high pressure seat design that withstands delaminating along with a short-throw lifting pin that reduces mechanical drag. The result is a first stage system that responds to ultra-fast flow requests from the second stage. MK17, MK11 & MK11T are Balanced Diaphragm first stages.

Air balanced linear flow valve second stage technology

Scubapro's Air-Balanced Linear-Flow Valve technology represents the ultimate in air flow performance. The smaller, lighter spring used in Scubapro's Air-Balanced Linear-Flow Valve can provide the lowest possible inhalation effort. The result is an ultra-high air flow that remains exceptionally stable under all breathing conditions. **A700, X650, S600T, S600, S555, G250HP, S555T** are air-balanced second stages.

Venturi-Initiated Vacuum Assisted Technology (VIVA)

Scubapro developed VIVA (Venturi-Initiated Vacuum Assist) to power assist every breath. A high-velocity air stream pulls air molecules inside the second stage casing, which generates a vacuum behind the diaphragm. As the diaphragm draws further inward, it depresses the lever which maintains the poppet open for a "power assisted" breath.

Classic downstream valve second stage technology

Classic downstream valve second stages are particularly noted for their legendary safety and reliability. The Scubapro classic downstream valve has been a major factor in second stage designs for many years, and is the featured technology of the **R395, R295 and Air 2** second stage

deep down you want the best

Octopus version includes: 100 cm LP-hose, yellow front cover and hose protector. All Scubapro First and Second stages are compatible with each other.

NEW

X12.714.000 MK17/A700 THB 33,875.-

MK17 CHROME FIRST STAGE

- Balanced diaphragm design
- Dry ambient chamber
- Thermal Insulating System (TIS)
- Anti Freeze system (AF)
- 4 Low pressure ports (2 HFP)
- 2 High pressure ports

A700 SECOND STAGE

- Compact dimensions for light weight comfort
- Adjustable inhalation control
- Diver adjustable VIVA
- Air balanced valve technology
- Super high flow exhaust valve

NEW

X12.770.010 MK25/A700 THB 35,980.-

MK25 CHROME FIRST STAGE

- Top Performer
- Balanced Piston Design
- NEW Thermal Insulation System 2
- 5 High flow low pressure 360° swivel ports
- Dual high pressure ports

A700 SECOND STAGE

- Compact dimensions for light weight comfort
- Adjustable inhalation control
- Diver adjustable VIVA
- Air balanced valve technology
- Super high flow exhaust valve

X12.780.010 MK25T/S600T
(TITANIUM) SET THB 70,005.-**MK25T FIRST STAGE**

- Solid titanium body and components
- Balanced piston design
- Thermal Insulation System
- 5 High flow low pressure 360° swivel ports
- Dual high pressure ports
- Available in yoke or DIN configurations

S600T SECOND STAGE

- For extreme conditions and environments
- Adjustable inhalation control
- Diver adjustable VIVA
- Large soft purge and oversized controls
- Compact size
- Orthodontic silicone mouthpiece

X12.758.500 MK11T/S555T
WHITE SET THB 58,240.-**MK11T FIRST STAGE**

- Solid titanium body and components
- Balanced diaphragm design
- 2 Low pressure ports
- 2 Low pressure ports "High flow" (+15%)
- 2 High pressure ports
- Available in Yoke configuration

S555T SECOND STAGE

- Light weight design
- Diver adjustable VIVA
- Large soft purge and oversized controls
- Compact size
- Orthodontic silicone mouthpiece

X10.060.010 MK2 PLUS FIRST STAGE

- The workhorse "Simple reliability"
- Standard piston technology
- TIS thermal insulation system
- 4 low pressure ports
- Single high pressure port
- Available in yoke or DIN system

THB 4,965.-

X10.060.300 MK2 PLUS DIN THB 5,390.-

X10.117.000 MK17 FIRST STAGE

- Balanced diaphragm design
- Dry ambient chamber
- Thermal Insulating System (TIS)
- Anti Freeze system (AF)
- 4 Low pressure ports (2 HFP)
- 2 High pressure ports

THB 10,220.-

X10.117.300 MK17 DIN 300 BAR THB 10,980.-

X10.713.000 MK25 FIRST STAGE

- Top Performer
- Balanced Piston Design
- NEW Thermal Insulation System 2
- 5 High flow low pressure 360° swivel ports
- Dual high pressure ports
- Available in yoke or DIN

THB 12,315.-

X10.710.060 MK25 DIN 300 BAR THB 13,075.-

X10.707.010 MK11 FIRST STAGE

- Balanced diaphragm design
- 4 Low pressure (AF) - 2 High flow ports
- 2 High pressure ports
- Very compact design

THB 9,165.-

ALL SCUBAPRO REGULATOR SYSTEMS ARE NITROX COMPATIBLE, APART FROM THE MK25 & MK11 TITANIUM UP TO A MAXIMUM OF 40% OXYGEN AT 230 BAR TANK PRESSURE

X11.650.000 X650 SECOND STAGE

- Balanced Coaxial Flow Valve
- 20% less exhalation effort than other models
- Advanced Adjustable Inhalation Control
- Dive/pre-dive control switch
- For extreme conditions and environments
- Big soft purge and oversized controls
- Extraordinary valve position and compact size
- Orthodontic silicone mouthpiece

**THB 15,680.-****X11.600.000 S600 SECOND STAGE**

- Balanced flow valve
- High flow exhaust valve
- Adjustable inhalation control
- Diver adjustable VIVA
- For extreme conditions environments
- Large soft purge and oversized controls
- Compact size
- Orthodontic silicone mouthpiece

**THB 14,000.-****PURGE COVER FOR S600**

X11.601.032P	Purge Cover for S600 - Blue
X11.601.033P	Purge Cover for S600 - Red
X11.601.034P	Purge Cover for S600 - Orange
X11.601.035P	Purge Cover for S600 - Neon Yellow
X11.601.036P	Purge Cover for S600 - Black
X11.601.039P	Purge Cover for S600 - Pink

**THB 285.-****X11.551.000 S555 SECOND STAGE**

- High performance and air balanced
- Balanced flow valve
- For extreme conditions and environments
- Diver adjustable VIVA
- Big soft purge and oversized controls
- Compact & lightweight
- Orthodontic silicone mouthpiece

**THB 12,735.-****X11.261.010 G250V SECOND STAGE**

- Peak Air balancing linear flow system
- Technopolymer valve housing & components
- Metal adjustable knob
- Diver adjustable inhalation resistance
- Diver adjustable VIVA (venture system)
- Cold water resistance
- Compact & lightweight design
- Orthodontic silicone mouthpiece

**THB 11,055.-**

X11.393.000 R395 SECOND STAGE

- Classic downstream valve
- Diver adjustable VIVA
- Reversible attachment of low pressure hose
- For extreme conditions and environments
- Compact and lightweight
- Redesigned classic purge
- Orthodontic silicone mouthpiece

**THB 7,280.-****X11.293.100 R295 SECOND STAGE**

- Classic downstream valve
- Reversible attachment of low pressure hose
- Specially designed for rental and training
- Fixed VIVA flow vane
- Extremely lightweight and compact
- Redesigned classic purge
- Orthodontic silicone mouthpiece

**THB 4,960.-****X11.394.000 R395 OCTOPUS**

- Classic downstream valve
- Diver adjustable VIVA
- Reversible attachment of low pressure hose
- For extreme conditions and environments
- Compact and lightweight
- Redesigned classic purge
- Features 100 cm hose
- Orthodontic silicone mouthpiece

**THB 8,120.-****X11.294.100 R295 OCTOPUS**

- New Fresh look for 2008
- Improved air flow properties
- Features 100 cm hose
- Same features as R295 2nd stage

**THB 5,170.-****X21.089.000 AIR 2 (ALTERNATE AIR SOURCE)****4th Generation**

- New lighter design
- Single hose configuration
- Classic downstream valve
- Fixed VIVA flow vane
- Self-flushing mechanism
- One hand operation
- Air balanced power inflator valve

**THB 7,090.-**

XRS2 SCUBAPRO STANDARD PACKAGE

**LIMITED LIFETIME WARRANTY FOR REGULATOR
ONE YEAR WARRANTY FOR CONSOLE AND BCD**

STANDARD PACKAGES

- 1000 Denier Cordura exterior
- 420 Denier Nylon interior
- Advanced cummerbund adjustment system w/extended velcro for extra waist size
- 3 welded valves perfect for the rental market
- Balanced Power Inflator (BPI)
- Comfortable soft anti slip backpack
- Easy carry handle on backpack
- 2 velcro flap pockets
- Standard tank band system for teaching
- 7 Color coded sizes

COMPLETE SET - THB 33,900.-

Simple, Reliable, Comfortable

T-One Size	XXS	XS	S	M	L	XL	XXL
Color Coded	Purple	N. Pink	N. Green	Blue	N. Lime	N. Orange	Dark Grey
Lift Capacity in Kg.	9	11	14	17	18	21	23

X22150 BELLA LADIES BCD

New by Scubapro. Specially designed for the ladies. The Scubapro Bella has all the well known Scubapro features, plus a great fit; making it comfortable for the entire dive.

- New wrap around jacket
- Special cut for the ladies
- New foam backpack
- Best wrap aircell ever made
- New easy off dump valves

THB 24,045.-

Available Sizes	XS	S	M	L	XL
Lift Capacity in Kg.	10	13	14	14	16

X21227 CLASSIC PLUS BCD

- Stabilizing jacket
- Weight integrated up to 10/12kg
- 3-Dump deflation system
- Double neoprene coated fabric
- Hand glued-fin seal seams
- Stainless steel D-rings
- Zippered chest and side mesh pockets
- Soft neoprene neck roll
- Thermoformed foam-padded back pad
- Depth compensating cummerbund
- Reflective piping
- Adjustable chest strap

THB 31,110.-

*** AIR2 Optional

Available Sizes	XS	S	M	L	XL
Lift Capacity in Kg.	14	15	20	20	31

X22102 LADY HAWK BCD

- Weight integrated up to 13kg.
- 3-Dump deflation system
- Patented harness
- Streamlined, low-drag profile
- Stainless Steel D-rings
- Rotating buckles on adjustable shoulder straps
- Dual zippered pockets with rollout pocket
- Soft neoprene neck roll and padded back
- Firmly padded, flexible cummerbund
- 1,000/420 denier nylon material

THB 25,990.-

Available Sizes	S	M	L
Lift Capacity in Kg.	15	15	15

X21706 T-SPORT PLUS BCD

- High abrasion resistant 500 Denier Cordura
- Lightweight construction
- Soft padded anti-slip backpack
- Balanced Power Inflator (BPI)
- Perfect fit and comfort
- Integrated Weight System
- Advanced cummerbund adjustment system
- UV resistant color system
- Rotating shoulder buckles
- 3 Plastic & 2 Stainless steel D-rings

THB 23,200.-

Available Sizes	XS	S	M	L	XL	XXL
Lift Capacity in Kg.	11	14	17	18	21	23

X22130 KNIGHT HAWK BCD

- Back flotation jacket
- Weight integrated up to 13kg.
- 3-Dump deflation system
- Patented harness
- Streamlined, low-drag profile
- Stainless Steel D-rings
- Rotating buckles on adjustable shoulder straps
- Dual zippered pockets with rollout pocket
- Soft neoprene neck roll and padded back
- Firmly padded, flexible cummerbund
- 1,000 denier nylon material

THB 25,990.-

Available Sizes	S	M	L	XL	XXL
Lift Capacity in Kg.	15	21	21	21	21

X21703 T-ONE BCD

- Rugged heavy duty 1000 Denier Cordura exterior
- Lightweight 420 Denier Nylon interior
- Advanced cummerbund adjustment system w/ extended velcro for extra waist size
- 3 Welded valves perfectly adapted for the rental market
- Balanced Power Inflator (BPI)
- Comfortable soft, anti-slip backpack
- Easy carrying backpack handle
- 2 velcro flap pockets
- Standard tank band system
- Colour coded size system

THB 12,500.-

Available Sizes	XXS	XS	S	M	L	XL	XXL
Lift Capacity in Kg.	9	11	14	17	18	21	22

X21709 T-BLACK BCD

Airflex Technology System

Unique adjustable buoyancy bondage system with bungee enclosures allows quick deflation without any extra drag and maintains stability. The high-capacity bladder provides the highest buoyancy lift of all our T-Line BCD's.

- Balanced Power Inflator (BPI)
- Heavy duty 1000 Denier Cordura exterior
- Lightweight 420 Denier Nylon interior
- Hydrodynamic cut & foam padding on cummerbund and shoulder interior
- Patented integrated weight system
- Expandable rear trim pockets
- Front zipped cummerbund pocket
- T-comfort Backpack
- Large teeth zipper pocket
- Safety buoy compartment on right pocket
- Flexible chest strap
- 7 Stainless steel D-rings
- Carbon reinforced material on shoulders & front pocket flap
- Stainless Steel buckle Super-Cinch tank band system

THB 40,410.-

Available Sizes	XS	S	M	L	XL
Lift Capacity in Kg.	14	18	22	24	27

BCD'S

X21707 T-FORCE BCD

- Balanced Power Inflator (BPI)
- Highly abrasion resistant 500 Denier Cordura
- Hydrodynamic cut & foam padding on cummerbund and shoulder interior
- Patented integrated weight system
- Expandable rear trim pockets
- Front zipped cummerbund pockets
- T-comfort Backpack
- Large teeth zipper pocket
- Flexible chest strap
- 6 Stainless steel D-rings
- Stainless steel buckle Super-cinch tank band system

THB 32,500.-

Available Sizes	XS	S	M	L	XL	XXL
Lift Capacity in Kg.	11	14	17	18	21	23

B79301 BCD - AIRONE (LIGHT WEIGHT TRAVEL BCD)

- Outer Bladder: PU coated Nylon 210 D
- Inner Bladder: PU coated Nylon 210 D
- Weight system: Back weight integration pockets (up to 2 kg each)
- Dump valves: 3 with pull command
- D-rings: 4 – 40mm rings in plastic + 2- 25 mm rings in plastic
- Dry weight (size L): 2250 g
- Incl. Traveling Bag

THB 15,925.-

Available Sizes	XS	S	M	L	XL
Lift Capacity in Kg.	8.2	11.2	15	18	19.5

B79601 NINFA LADIES BCD

Feminine comfort.

Ninfa is a jacket studied in even smallest details to adapt to the anatomy and needs of women who love diving with the same elegance and agility as a butterfly.

- Outer Bladder: PU-coated Nylon 840 D
- Inner Bladder: PU-coated Nylon 420 D
- Dump valves: 3 with manual commands
- D-rings: 4 – 40 mm rings in stainless steel + 2 – 25 mm rings in technopolymer
- Dry weight (size M): 3100 g (complete with hose and weight pockets).

THB 18,950.-

Available Sizes	XS	S	M	L
Lift Capacity in Kg.	8.2	8.2	11.2	15

B76800 BCD-PRO TECH SWS (SWS = Smart Weight System)

Innovation in tradition.

For the past 10 years the Pro Tech continues to be a milestone in the market and one of the best selling jackets in the world. It is recommended to all divers for its versatility and comfort. This year it has been updated not only aesthetically but also in functionality and practicality.

- Outer Bladder: PU coated Nylon 840 D
- Inner Bladder: PU coated 420 D
- Dump valves: 3 with pull command
- D-rings: 3 – 50 mm curved in stainless steel + 2 – 50 mm straight in stainless steel + 2- 25 mm in stainless steel
- Dry weight (size L): 4200 g (complete with hose and weight pockets)

THB 20,900.-

Available Sizes	XS	S	M	L	XL
Lift Capacity in Kg.	8.2	10.2	14.3	17.3	20.4

Integrated Weight Pockets Include!

B76700 PRO 2000 SWS (SWS = Smart Weight System)

- Outer bladder in PU coated Duragon
- Inner bladder in PU coated 420 deniers Cordura
- Front weight integration with quick release (up to 4kg ea.)
- Back weight integration pockets (up to 2kg ea.)
- 3 Dump valves with traction command
- Regulator holder easy to visualize
- 6 "Hi-Tenacity fabric holders
- 5 "D' rings in tempered naval-aviation alloy
- Chest strap adjustable in 3 positions
- Ergonomic backpack in "Nylon HR" material
- AHS Adjustable Harness System
- Piston Inflator
- Back volume adjustable using pulling straps on pockets

Integrated Weight Pockets Include!

THB 22,750.-

Available Sizes	XS	S	M	L	XL	XXL
Lift Capacity in Kg.	8.2	11.2	18.4	20.4	21.4	21.4

B77500 ICARO

- Main bladder in PU resinated Cordura 1000
- Single bladder BCD with medium/high inner volume
- Shoulder pads with urethane draining padding
- 2 Dump valves with traction command
- Lightweight (only 2.7kg)
- Piston Inflator
- New Adjustable Harness System AHS
- Quick Release System with closing buckles
- Chest strap with buckle
- Bladder with expandable bellow

Suunto HelO2 is an advanced mixed-gas dive computer for divers who use multiple gases such as trimix, nitrox and oxygen to go deeper for longer.

Featuring the Suunto Technical RGBM algorithm and a Multi-gas Dive Planner, the device is designed to make your whole technical diving experience simpler, faster and flexible.

- 8 Gas switching
- Suunto technical RGBM algorithm (including helium tissues)
- Deep stops
- Matrix display
- Dive profile displayed graphically on the screen
- Seamless collaboration with dive planner
- Expanded personal adjustment

- Slightly negative buoyancy.
- Available sizes: S, M, L, XL
- Like the tailfin of a Humpback, SCUBAPRO's Twin Jet Fin uses a split hydrofoil shape to deliver more forward motion with less effort.

As a result the Twin Jet is the fastest fin ever tested.

Patented split-fin propeller technology

A whole lot more kicking power with a lot less effort.

Patented drag-reducing vents

Substantially decreases resistance on both up and down stroke.

Molded from a denser compound

Offers more resistance to achieve additional thrust for speed.

Extended soleplate

Acts like a lever to enhance power stroke.

Extra-wide foot pocket

Ideal for wearing with dry or semi-dry suit.

Quick connect swivel buckles

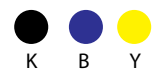

Buckle can be easily

Inserted from varying angles, easy to use with gloved hands.

X25387 TWIN JET FINS - BLUE

- Softer, lighter, more flexible compound to achieve optimal efficiency with minimal effort. Slightly positive buoyancy.
- Available sizes: S, M, L, XL

THB 8,185.-

X25388 TWIN JET FINS - Hi-Viz™ YELLOW

- Softer, compound like cobalt in extremely vibrant color to afford the greatest visibility underwater. Slightly positive buoyancy.
- Available sizes: S, M, L

X25.879 JET SPORT ADJUSTABLE

- Three material construction optimizes flex and comfort
- Quick release buckles
- Ergonomic foot pocket
- Vented blade for an efficient use of power
- Available in Graphite
- Sizes: XS/4-6, S/6-8, M/8-10, L/9-12, XL/11-13

THB 3,360.-

K

X25.712 SEAWING NOVA FIN

- Pivot control technology ensures the most efficient angle of attack is maintained no matter how hard or gently you kick, generating thrust without drag or wasted energy.
- Clean water blade allows water to flow cleanly onto the working section of the blade for less drag and increased thrust.
- Wing tips arc upwards, increasing high-speed stability.
- Ergo2 foot pocket with power plate for the best comfort and ultimate power transmission.
- Marine quality bungee heel strap with custom adjustment system for total comfort and convenience
- Sizes : S, M, L and XL

THB 7,835.-

K

X25.350-2 JET FIN CLASSIC

Long history of performance. Considered the standard for power and durability since 1965.

Proven vented design. Decreases drag on the upstroke; enhances thrust on the downstroke.

Adjustable heel strap. Secures strap for ease of pre-dive preparation. Available sizes: M, L, XL, XXL

THB 5,640.-

**MSSIFL-WA INTOVA ALUMINIUM TORCH
4.7W, 70 LUMENS, WIDE ANGLE**

- Super bright 4.7 watt CREE LED lifetime bulb
- 130 Lumens Bright
- Custom Wide angle Beam
- Anodized Aluminium housing
- Waterproof to 400' (120m)
- 8 hour burn time
- Compact, stylish and comfortable ergonomic design
- Magnetic switch
- Triple O-ring protection
- Perfect for diving, camping, safety and video

THB 3,585.-

**MSSISN5000 INTOVA SUPERNOVA
WATERPROOF TORCH**

- Switch: Press button switch (four-position : (1) 100% light; (2) 30% light; (3) flash; (4) off)
- Luminous flux: The first position 500 lumens; the second position 180 lumens.
- Burn time: 100% light = 3.5 Hours / 30% light = 20 Hours
- LED Life: 100.000 hrs.
- Waterproof: Waterproof to 130m.

THB 17,375.-

**MSSIMINI INTOVA MINI TORCH 4.7W,
130 LUMENS**

- LED: 1 CREE
- Watts: 4.7 watts
- Lumens: 130
- Battery: 2 CR 123
- Burn Time: 10 hours
- Variable Power: Full/30%/strobe
- Switch: Magnetic/tail
- Material: Aluminium
- Depth: 400ft/120m
- Video Option: Yes

B1576 X5-LED TORCH SEAC SUB

The most powerful of the new family: every dive will benefit from the technology and performance of the 5 LEDs to guarantee maximum visibility even under the most extreme conditions.

- Water proof to 200m (double O-ring radial seal)
- Diameter / Length: 210 mm long, diameter 77 mm
- Burn time: 5 Hrs, 4 of which at maximum power
- Batteries: 8 x AA Batteries (1.5 V)

THB 20,595.-

U3250 AQUA-LUMEN LED 5W, 230 LUMENS / up to 50 Hrs BURN TIME

Aqua-Lumen LED Torch Flashlight is a high intensity that has an incredibly long burn-time. This flashlight is practically indestructible & maintenance free.

The rugged military style casing makes the flashlight just as tough as it looks.

3 x C-sized batteries to maximize convenience while minimizing operating costs.

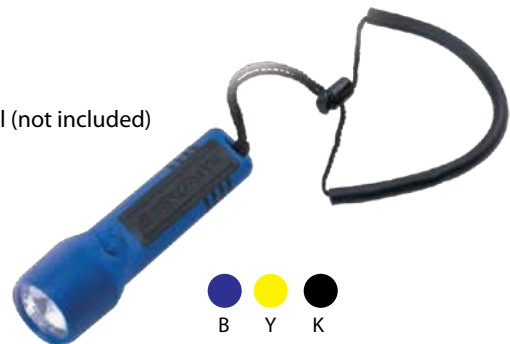

- Lamp Life : 50,000 Hrs.
- Water Proof: 120 M. (400 Feet).
- Size: 38 X 158 m/m. Weight: 230 g. with 3 Batteries.
- Battery: C X 3 Alkaline.
- Wrist Strap Lanyard : PU Curving Lanyard Included.

THB 4,670.-

SAL09 SMALL BACK UP LIGHT

- Small & compact
- Soft hand grip and lanyard
- On/Off switch lock for safety
- Light head : 16.5cm long, diameter 3.2cm
- Two O-rings for double seal
- Available colors : Blue, Black and Yellow
- 6 W Halogen Bulb
- Battery : 4 x alkaline AA-cell (not included)
- 1.5 Hours burn time
- Waterproof to 60m

THB 920.-

U2640 LED TORCH 2640

- 3 LED Torch Flashlight is a high intensity torch with an incredibly long burn time.
- This flashlight is practically indestructible and maintenance free.
- The rugged military style casing makes this flashlight as tough as it looks.
- The electronics include a constant current control circuitry that maintains the LED's brightness output throughout the entire life of the battery.
- Uses AAA sized batteries.

THB 3,630.-

X30.041.100 POCKET LIGHT

- Halogen bulb - 2W
- Light head: 19.5cm long, diameter 4.7cm
- Double O-ring sealed battery compartment
- Three standard 1.5V C-cell batteries (not included)
- Waterproof to 200m

THB 2,170.-

TDL05 STROBE LIGHT

- Divemaster safety strobe
- Uses 1 C-cell battery
- Waterproof to 40m
- Batteries not included

PROFI LINE II - CAPITANO 140, MARINER 200, MARINER 250 and MARINER 320

Designed for diving schools, professional divers and those who operate professional filling stations. You can rely on the toughness of BAUER compressors, above all, on economic efficiency, extremely tough continuous operation and expandability. After all, the diver wants to rely on his compressor for the entire season.

HIGH PERFORMANCE & EXTREME RELIABILITY

The driving gear is suitable for short running as well as continuous operation. The 4 stage construction and heavy duty industrial roller bearings guarantee maximum lifetime for all professional applications. The first stage and high pressure final stage are equipped with high tech polymer piston rings, which proved their outstanding wear and tear properties during several endurance tests in an independent Quality Inspection Centre. The maintenance-free rigid oil pump guarantees reliable lubrication.

CAPITANO 140

For professional applications, where toughness, compactness and weight is of importance.

MARINER 200

With 200 l/min. it is the most versatile among the new units of the PROFI-LINE II. Crash frame in series.

MARINER 250

Even more performance and equipped with the new SUPER TRIPLEX P31 filter in series.

MARINER 320

With 320 l/min. the new Mariner 320 is the most powerful portable compressor worldwide!

1) also available with switch over device 330/225 bar (5000/3300 psi) = HU type

2) Cylinder filling from 0-200 bar (0-2000 psi)

3) P 81 Filter System optional

4) measured at a distance of 1m acc. to DIN 45635, part 1

JUNIOR II COMPRESSOR

THE NEW CLASSIC

The most compact & highly mobile model in our diving compressor range.

Due to its toughness & reliability the JUNIOR has become a global classic.

JUNIOR II offers an even more compact design & numerous improvements in details.

The patented TRIPLEX filter system guarantees purest breathing air according to DIN EN 12021.

- 225 & 330 BAR
- 46 kg
- 100 l/min

- 1) available with switch over device 330/225 bar to 225/330 bar
- 2) with telescopic intake tube & SUBARU motor

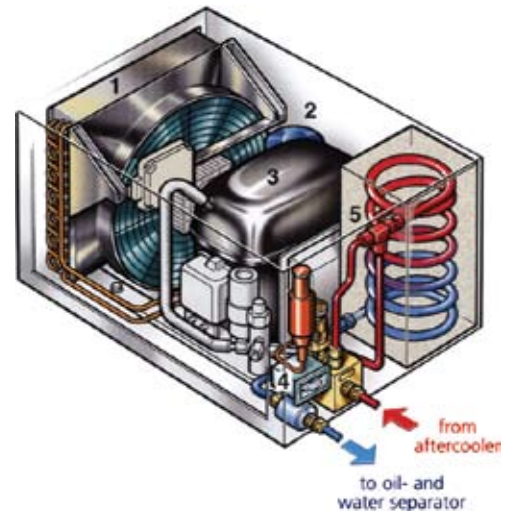

Type max.330 bar ¹⁾	Drive	FAD L/min*	min ⁻¹	Fill rate min**	Engine kW	Engine HP	Filter system TRIPLEX	L cm	W cm	H cm	Weight net kg

AIR KOOL

The AIR-KOOL unit is piped into the compressor system between the after cooler and the oil and water separator. It cools warm, saturated compressed air to a temperature of +6°C. Refrigeration reduces the air's dew point. A larger proportion of the water vapour condenses in the oil and water separator, extending cartridge life.

Technical Data

- Dimensions: L 68 cm × H 40 cm × W 50 cm
- Refrigeration unit: power supply 800 W
- Operating temperature: +5°C to +45°C ambient temperature

CASCADE SYSTEM

Storage Tank Specifications:

- Steel tanks with 10 year hydro test
- Working pressure: 200 or 300 bar
- Sturdy steel frame
- Connected according to customer's specifications
- Modular construction for trouble free system extension

Dive Supply has facilities to hydrotest & certify cylinders in all sizes.

INDIAN OCEAN REEF GUIDE

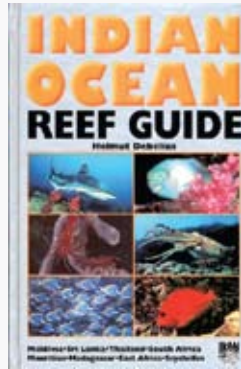

By Helmut Debelius

Maldives - Sri Lanka - Thailand
South Africa - Mauritius
Madagascar - East Africa - Seychelles

The author made his first dives in tropical waters around Sri Lanka 25 years ago.

Since then he explored the whole Indian Ocean with his camera, diving not only in the tourist centers like the Maldives or Seychelles, but also taking UW-Photos at remote islands like Cocos-Keeling in the East or Aldabra in the West. The results are shown in this book including more than 1,000 photos from the natural habitat of the marine animals. Special emphasis was given to rare species like sharks and rays.

ASIA PACIFIC REEF GUIDE

By Helmut Debelius

Malaysia - Indonesia - Palau
Philippines - Trop. Japan
China - Vietnam - Thailand

Today the coral reefs of South East Asia harbour the greatest species diversity of all Oceans. This is true not only for fishes but also for invertebrates because the species from the coral world radiated from the triangle of the Philippines, Malaysia and Indonesia. 20,000 Islands and innumerable coral reefs are located in the region where still many new species are discovered. This book focuses on the coastal fauna which most divers and snorkellers see first.

NUDIBRANCHS OF THE WORLD

By Helmut Debelius, Rudie H. Kuiter

Until diving became popular, only scientists would have known what a nudibranch actually was, but now it is the popular term for the colorful slugs of the seas and they have become the favorite of many divers and photographers.

Nudibranchs come in an amazing array of colors and shapes. Many species are eye-catching while on the other hand some mimic other creatures so well that their discovery is often accidental. Their brilliant colors serve as a warning for potential predators, indicating bad taste or possible poisons, but there are some species that don't have these properties but take advantage by simply looking like they do.

K1103 ENGLISH

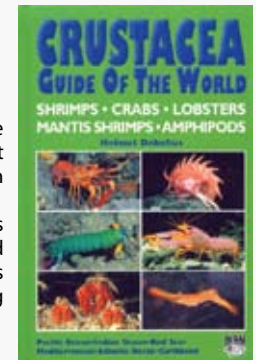

CRUSTACEA GUIDE OF THE WORLD

By Helmut Debelius

Pacific Ocean - Indian Ocean
Red Sea - Mediterranean
Atlantic Ocean - Caribbean

Crustaceans form a group of marine animals the author is especially acquainted to since many years. Therefore it was his great challenge to present for the first time in literature a field guide perfectly illustrated with species of Crustacean from all the world's seas. And to introduce the behavior and abilities of those absolutely charming critters comprehensively and in detail in fascinating stories.

FISH GUIDE SOUTH EAST ASIA

By Helmut Debelius

From Maldives to the Philippines

Indo-Pacific fish, especially those living in the coral reef of Southeast Asia, comprise the world's greatest variety of species. This book features more than 800 coloured photographs providing divers, aquarists and tourists with a perfect overview of all the ocean fish encountered in the reefs and open waters off the islands and coastlines of Thailand, Burma, Malaysia, Indonesia and the Philippines. This is the most compact fish guide ever published that has been strictly illustrated with underwater photographs.

INVERTEBRATE GUIDE

By Peter Wirtz & Helmut Debelius

From Spain to Turkey, Norway
to the Equator

About 7 million years ago, the Strait of Gibraltar opened and, in a gigantic waterfall, the Mediterranean Basin filled with water from the Atlantic Ocean. This book presents 820 species of coastal invertebrates in more than 1000 underwater photos. All large and common species are shown, many others have never been photographed before, some have only recently been detected and some are still undescribed. Four of them were named in honor of the author, who has observed the behavior and ecology of eastern Atlantic and Mediterranean animals during the last 30 years.

DIVING & SNORKELING THAILAND

By Helmut Debelius

Top dives in the Andaman Sea & the gulf of Thailand includes Mergui Archipelago & Burma Banks

Bathed by the waters of two oceans, Thailand's rich and varied diving environments are home to colorful coral reefs and an impressive diversity of marine life. With its spectacular natural scenery, and rich culture, this Southeast Asian kingdom is an ideal vacation destination. This book describes some of the best dive sites accessed from Thailand with full-color photos throughout.

DEEPER INTO DIVING

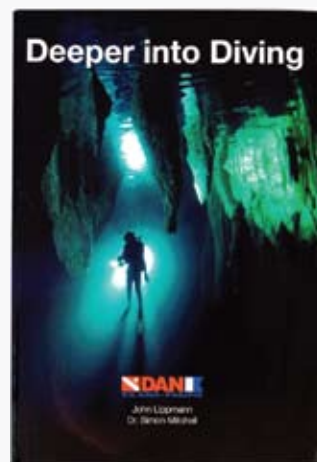

By John Lippmann

Dr. Simon Mitchell

This professional level treatise covers decompression tables and the physical, physiological and psychological considerations of diving. A great deal of this technical information is not readily available elsewhere.

Deeper Into Diving is for the experienced diver, the technical diver, the dive instructor, and other diving and dive medical professional. It contains information on a variety of decompression procedures and technical information that is not easily obtainable. This book also provides very valuable insights into diving physiology and various physical and medical aspects of deeper diving.

SEAHORSES & THEIR RELATIVES

By Rudie H Kuiter

This book is the most comprehensive publication of Seahorses and their relatives ever published.

Includes:

- Over 1,200 spectacular photographs
- All the known living seahorses illustrated together for the first time ... about 80 species
- A single full index of common names and scientific names
